9 CHANGES IN ACCOUNTING POLICIES

(a) Transition to the MFRS Framework

These unaudited interim condensed financial statements are for part of the period covered by the Bank's first annual financial statements for the year ending 31 March 2013 prepared under the MFRS framework. Accordingly, the Bank have applied MFRS 1 *First-time Adoption of Malaysian Financial Reporting Standards* in their transition to the MFRS framework which came into effect for financial periods beginning on or after 1 January 2012. Other than the financial impact arising from the change in accounting policy on collective assessment allowance due to the removal of transitional provision of 1.5% as detailed below, the MFRS framework did not result in any financial impact to the Bank as the accounting policies adopted under the previous FRS framework were already in line with the requirements of the MFRS framework.

The transition to the MFRS framework has resulted in the following changes:

MFRS 139 Financial Instruments: Recognition and Measurement ("MFRS 139") - Accounting Policy on Collective Assessment Allowance for Loans, Advances and Financing

Prior to the transition to MFRS 139, the Bank had maintained their collective assessment allowance at 1.5% of total outstanding loans, net of individual assessment allowance, in line with Bank Negara Malaysia's transitional provisions under its Guidelines on Classification and Impairment Provisions for Loans/Financing ("GP3"). Upon the transition to MFRS 139 on 1 April 2012, these transitional provisions, which were allowed under the previous GP 3 were removed and the Bank have applied the requirements of MFRS 139 in the determination of collective assessment allowance.

Under MFRS 139, collective assessment is performed on loans which are not individually significant based on the incurred loss approach. Loans which are individually assessed and where there is no objective evidence of impairment are also included in the group of loans for collective assessment. These loans are pooled into groups with similar credit risk characteristics and the future cash flows for each group is estimated based on the historical loss experience for such assets, analysed by way of probability of default and loss given default percentages. Collective assessment allowance is made on any shortfall in these discounted recoverable amount against the carrying value of the group of loans.

This change in accounting policy has been accounted for retrospectively and has resulted in a decrease in the collective assessment allowance charged in the income statements and a writeback of collective assessment allowance to the opening retained profits and opening collective assessment allowance in the statements of financial position.

NOTES TO THE UNAUDITED INTERIM CONDENSED FINANCIAL STATEMENTS FOR THE FINANCIAL PERIOD ENDED 31 DECEMBER 2012

24 REVIEW OF PERFORMANCE

The Bank recorded profit before taxation for the 3rd quarter ended 31 December 2012 of RM4.2 million, compared to RM0.2 million loss for the previous corresponding period. Operating income increased by RM13.6 million (92%) from RM14.8 million to RM28.4 million primarily on higher non-interest income of RM17.4 million against non-interest income of RM5.5 million in the previous corresponding period. Net interest income increased by RM1.7 million (18%) from RM9.3 million to RM11.0 million. Total net operating income was offset by significantly higher operating expenses which increased by RM8.5 million (58%) from RM14.5 million to RM23.0 million in the previous corresponding period. This was mainly due to increase in personnel, administration and general expenses after commencement of operations since the previous corresponding period.

Total assets registered an increase of RM545 million or 107% from RM509 million to RM1 billion at 31 December 2012. The Bank's core capital ratio and risk weighted capital ratio remained strong at 61.61% and 61.9% respectively.

25 PROSPECTS

The global economy continues to be challenging with risks in both advanced and emerging economies. Locally, the Malaysian economy is expected to remain resilient underpinned by strong domestic demand.

The Bank's strategy remains focused on growing its high priority corporate client portfolio asset base and managing capital efficiently to support business growth. In addtion, the Bank will continue to leverage on its network of group companies - Mizuho Corporate Bank, Mizuho Bank, Mizuho Securities, and Mizuho Trust & Banking - to offer a complete range of high quality financial products and services to the local market.
