9. Review of performance

The Bank recorded a lower profit before taxation ("PBT") of RM41.1 million for the financial period ended 31 December 2020, a decrease of RM40.1 million (or 49.4%) compared to RM81.2 million in the previous corresponding period. The decrease in PBT was mainly due to higher allowance for expected credit losses in current financial period of RM39.1 million compared to RM0.9 million in the previous corresponding period. Operating income improved slightly by 0.7% to RM150.6 million mainly due to the increase in net interest income of RM15.6 million (or 18.4%) being offset by a decrease in non interest income of RM14.6 million (or 22.6%) in the current financial period. Operating expenses increased by RM2.8 million (or 4.2%) mainly due to the increase in administration and general expenses (RM2.5 million).

Total assets stood at RM12.8 billion as at 31 December 2020, a slight decrease of 4.0% compared against total assets of RM13.3 billion at 31 March 2020. The Bank's Common Equity Tier 1 capital ratio and Total Capital Ratio remained strong at 24.814% and 25.873% respectively.

10. Prospects

The impact of COVID-19 on the global economy continues to be severe and uncertain. Coming into 2021, prolonged restrictions on community and economic activities are expected to slow any economic recovery until vaccination becomes effective and widespread. In Malaysia, the Government and the King have announced Movement Restriction Order ("MCO") 2.0 and a state of emergency respectively to combat the worsening Covid-19 situation and to remove the risk of holding elections under worsening pandemic circumstances. Although MCO 2.0 is less stringent than the original MCO in March 2020, the risks to the growth outlook for Malaysia are clearly to the downside. The state of emergency, however, will remove near-term political uncertainty and could prove to be a blessing in disguise for Malaysia's economic recovery into Q2 2021 and beyond.

Despite the uncertainties and challenges faced in the economy and financial markets, Mizuho Bank Malaysia, as part of Mizuho Financial Group remains committed to fulfilling our mission as a financial institution, fully exercising our financial functions to support our customers. The bank will continue to position itself as a resilient financial institution that our customers can depend on.

22. Capital adequacy

The capital ratios are computed in accordance with Bank Negara Malaysia's Capital Adequacy Framework (Capital Components) and Capital Adequacy Framework (Basel II - Risk Weighted Assets) (collectively, the "Framework") of which the latest version was issued on 2 February 2018. The Bank has adopted Standardised Approach for credit risk and market risk and the Basic Indicator Approach for operational risk. In line with transitional arrangements under BNM's Capital Adequacy Framework (Capital Components), the minimum regulatory capital adequacy requirement for common equity Tier 1 ("CET1") capital ratio and Tier 1 capital ratio including the capital conservation buffer are 7.0%, 8.5% and 10.5% on the risk-weighted assets ("RWA") respectively. The minimum regulatory capital adequacy requirement remains at 8% for total capital ratio.
