9. Review of performance

The Bank registered higher profit before taxation ("PBT") of RM39.7 million for the financial period ended 30 June 2020 compared to RM26.3 million in the previous corresponding period, representing an increase of RM13.4 million or 51.1%. The growth in the PBT was mainly contributed by higher operating income by RM6.8 million or 14.4%, coupled with the writeback of allowance for expected credit losses amounting to RM8.2 million in the current quarter. Operating expenses slightly increased by RM2.2 million or 11.0% mainly due to higher administration and general expenses.

Total assets stood at RM13.8 billion as at 30 June 2020, a slight increase of 3.4% compared against total assets of RM13.3 billion at 31 March 2020. The Bank's Common Equity Tier 1 capital ratio and Total Capital Ratio remained strong at 31.921% and 33.005% respectively.

10. Prospects

The impact of COVID-19 on the global economy is severe and unprecedented with global economic conditions expected to remain weak and global growth projected to be negative for the year. In Malaysia, eventhough there has been a gradual reopening of the local economy since May, the pace and strength of the recovery process is subject to downside risks enamating from both domestic and external factors. These include the prospect of the resurgence of the pandemic leading to reimpositions of containment measures, persistent weakness in labour market conditions, and a weaker-than-expected recovery in global economic growth.

Despite these considerable uncertainties in the economy and financial markets, Mizuho Bank Malaysia as part of Mizuho Financial Group remain committed to fulfilling our mission as a financial institution, fully exercising our financial functions to support our customers. At the same time, the Bank will tackle this unprecedented crisis by maintaining a strong defence, expand our business foundations with an eye towards the world after COVID-19 and deepen structural reforms.
