Forward-looking Statements

This presentation contains statements that constitute forward-looking statements within the meaning of the United States Private Securities Litigation Reform Act of 1995, including estimates, forecasts, targets and plans. Such forward-looking statements do not represent any guarantee by management of future performance. In many cases, but not all, we use such words as “aim,” “anticipate,” “believe,” “endeavor,” “estimate,” “expect,” “intend,” “may,” “plan,” “probability,” “project,” “risk,” “seek,” “should,” “strive,” “target” and similar expressions in relation to us or our management to identify forward-looking statements. You can also identify forward-looking statements by discussions of strategy, plans or intentions. These statements reflect our current views with respect to future events and are subject to risks, uncertainties and assumptions.

We may not be successful in implementing our business strategies, and management may fail to achieve its targets, for a wide range of possible reasons, including, without limitation: incurrence of significant credit-related costs; declines in the value of our securities portfolio; changes in interest rates; foreign currency fluctuations; decrease in the market liquidity of our assets; revised assumptions or other changes related to our pension plans; a decline in our deferred tax assets; the effect of financial transactions entered into for hedging and other similar purposes; failure to maintain required capital adequacy ratio levels; downgrades in our credit ratings; our ability to avoid reputational harm; our ability to implement our Medium-term Business Plan, realize the synergy effects of ‘One MIZUHO’ and implement other strategic initiatives and measures effectively; the effectiveness of our operational, legal and other risk management policies; the effect of changes in general economic conditions in Japan and elsewhere; and changes to applicable laws and regulations.

Further information regarding factors that could affect our financial condition and results of operations is included in “Item 3.D. Key Information—Risk Factors” and “Item 5. Operating and Financial Review and Prospects” in our most recent Form 20-F filed with the U.S. Securities and Exchange Commission (“SEC”) and our report on Form 6-K furnished to the SEC on January 27th, 2015, both of which are available in the Financial Information section of our web page at www.mizuho-fg.co.jp/english/ and also at the SEC’s web site at www.sec.gov.

We do not intend to update our forward-looking statements. We are under no obligation, and disclaim any obligation, to update or alter our forward-looking statements, whether as a result of new information, future events or otherwise, except as may be required by the rules of the Tokyo Stock Exchange.

1. Major Risk Types and Management

- Mizuho Financial Group (the group) classifies its risk exposures according to the various kinds of risk, including credit risk, market risk, liquidity risk and operational risk, and manages each type of risk according to its characteristics.

Risk Type	Definition	Management Structure, etc.
Credit Risk	<ul style="list-style-type: none"> ● The risk of losses that may be incurred due to a decline in, or total loss of, the value of assets (including off-balance-sheet instruments), as a result of deterioration in obligors' financial position 	<ul style="list-style-type: none"> ● Adopting two different but mutually complementary approaches: "credit management," in which we manage the process for each individual transaction and individual obligor, and "credit portfolio management," in which we utilize statistical methods to assess the potential for losses related to credit risk
Market Risk	<ul style="list-style-type: none"> ● The risk of losses incurred by the group due to fluctuations in interest rates, stock prices and foreign exchange rates ● The risk of losses incurred when it becomes impossible to execute transactions in the market because of market confusion or losses arising from transactions at prices that are significantly less favorable than usual 	<ul style="list-style-type: none"> ● Setting limits for VaR and for losses ● Setting position limits based on interest rate sensitivity as needed, for banking activities
Liquidity Risk	<ul style="list-style-type: none"> ● The risk of losses arising from funding difficulties due to a deterioration in our financial position that makes it difficult for us to raise necessary funds or that forces us to raise funds at significantly higher interest rates than usual 	<ul style="list-style-type: none"> ● Measuring liquidity risk using indicators pertaining to the state of funding, such as limits on funds raised in the market ● Setting the liquidity categorization (liquidity risk stages) such as "Normal," "Anxious" and "Crisis" which reflects the funding conditions, and monitor EWIs(Early Warning Indicators) to define the liquidity conditions ● Utilizing stress testing for evaluate the sufficiency of liquidity reserve assets and the effectiveness of Liquidity Contingency Funding Plan which will be executed at the stage of "Anxious" and "Crisis."
Operational Risk	<ul style="list-style-type: none"> ● The risk of loss that the group may incur resulting from inadequate or failed internal processes, people and systems or from external events 	<ul style="list-style-type: none"> ● Determining risk management policies for each kind of risk, with recognition that operational risk includes information technology risk, operations risk, legal risk, human resources risk, tangible asset risk, regulatory change risk and reputational risk ● Measuring operational risk (Operational VaR) on a regular basis

Definition of Obligor Classifications of Self-Assessment	Obligor Ratings (Major Category)	Definition of Ratings	Classification	Claims Disclosed under the Financial Reconstruction Law
Normal Obligors	A1-A3	Obligors whose certainty of debt fulfillment is very high, hence their level of credit risk is excellent.	Investment Grade Zone	Normal Claims
	B1-B2	Obligors whose certainty of debt fulfillment poses no problems for the foreseeable future, hence their level of credit risk is sufficient.		
	C1-C3	Obligors whose certainty of debt fulfillment and their level of credit risk poses no problems for the foreseeable future.	Non-investment Grade Zone	
	D1-D3	Obligors whose current certainty of debt fulfillment poses no problems, however, their resistance to future environmental changes is low.		
Watch Obligors	E1	Obligors who require close watching going forward because there are problems with their borrowings, such as reduced or suspended interest payments, problems with fulfillment such as de facto postponements of principal or interest payments, or problems with their financial positions as a result of their poor or unstable business conditions.	Non-investment Grade Zone	
	E2			
R	Default		Claims for Special Attention	
Intensive Control Obligors	F1	Obligors who are not yet bankrupt but are in financial difficulties and are deemed to be very likely to go bankrupt in the future because they are finding it difficult to make progress in implementing their management improvement plans (including obligors who are receiving ongoing support from financial institutions).	Default	Claims with Collection Risk
Substantially Bankrupt Obligors	G1	Obligors who have not yet gone legally or formally bankrupt but who are substantially bankrupt because they are in serious financial difficulties and are not deemed to be capable of restructuring.		Claims against Bankrupt and Substantially Bankrupt Obligors, and equivalent
Bankrupt Obligors	H1	Obligors who have already gone bankrupt, from both a legal and/or formal perspective.

1. Liquid Assets held in our group

- Our group holds plentiful liquid assets, including central bank reserves and government bonds.
- Our group keeps abundant amounts of liquid assets to turn into cash for contingency funding plans even after excluding encumbered assets such as those pledged as collateral.

2. Basel III Liquidity Regulation

- Our group holds adequate high-quality liquid assets (HQLA) required by liquidity regulation.
- The consolidated LCR*1 as of 31 March 2015 : 128%*2

<Outline of Liquidity Regulation (LCR) >

- LCR has been introduced since 31 March 2015 as a Pillar I requirement of Basel III liquidity regulation.
- The regulation requires banks to hold a sufficient stock of HQLA to survive a 30-day period of market stress.
- The minimum requirement of LCR starts at 60% and increases 10% annually to reach 100% in January 2019.

*1 LCR : Liquidity Coverage Ratio

*2 This figure differs from the average figures that will be disclosed on a quarterly basis based on the Japan Financial Services Agency Notification.

4. Liquidity Risk (2) Status of Funding

Composition of Funding tools

- Our funding sources are mostly deposits and certificates of deposits. We have funded medium-to-long-term cash needs mainly by issuing securities.
