3. Reasons

We maintain a capital policy pursuing the optimum balance between capital adequacy, growth investment and enhancement of shareholder returns. In accordance with this initiative, we set forth the shareholder return policy pursuant to which progressive dividends are our principal approach while also executing flexible and intermittent share buybacks; we determine the amount of dividends based on the perspective of achieving steady growth of our stable earnings base, taking into consideration a dividend payout ratio of 40% as a guide.

Due to revising Consolidated Earnings Estimates for Fiscal 2024 upward in the Consolidated Financial Statements for the Second Quarter of Fiscal 2024 announced today, in accordance with our shareholder return policy, we determined to increase the interim dividends by ¥7.5 to ¥65.0 per share for the fiscal year ending March 31, 2025.

Additionally, we also revised the year-end dividend estimates from the previously estimated ¥57.5 to ¥65.0 per share, for an increase of ¥7.5. As a result, the annual dividends are estimated to be ¥130.0 per share, an increase of ¥15.0 from the previous estimates and that of ¥25.0 from the dividend paid for the fiscal year ended March 31, 2024.
